We teach 20 emotional skills to help businesses thrive

[LEARN MORE](#)

### THE SCHOOL OF LIFE FOR BUSINESS

Emotional maturity is key to the future of organisations. While the technical skills we need change as the economy changes, skills will always require human beings to collaborate in service of a common purpose, putting key emotional skills to use. By tapping into the emotional intelligence of their people, organisations in every industry can build a more engaged, productive and collaborative workforce. Research shows that emotional intelligence is the strongest predictor of performance, explaining a full 58% of success in all types of jobs.

### HOW WE WORK

We use strong core emotional skills training to power organisations in the following ways that 20 core emotional skills workshops allow us to build a bespoke program to fit the needs of your organisation and our Keynote Speeches provide the opportunity to address a large audience with an introduction to emotional intelligence in the workplace.

### Workshops

#### 20 EMOTIONAL SKILLS WORKSHOPS

We have built 20 emotional workshops on the key emotional skills areas used in business.

## Web Design - Outreach Refresh

BEFORE

# Port Phillip EcoCentre

## Web Design - EcoCentre Redevelopment

BEFORE

The screenshot shows the website's navigation menu with links for About Us, Programs, Get Involved, Education, News & Events, and Contact Us. A search bar is located on the right. The main content area features the EcoCentre logo and a headline: "EcoCentre Redevelopment September 2020 Render". Below this, there is a section titled "An EcoCentre where we all belong." followed by introductory text about the center's mission and a list of upcoming events including "NatureSpot: observe biodiversity from home" and "EcoCentre Seminar Series - Habitat for urban wildlife".

### Our Future Hub

City of Port Phillip, in conjunction with the Victorian Government, is upgrading the EcoCentre building so it is more functional and sustainable. During the works, the EcoCentre has relocated to the Cora Grove Community Centre adjacent to the gardens. Construction commences mid-2022 to be completed by late 2024.

## An EcoCentre where we all belong.

The people of Port Phillip and Greater Melbourne want to live in a greener, cooler, more liveable city. We want to breathe clean air and walk on litter-free beaches. We want our children and grandchildren to swim in a plastic-free bay, to hear birds singing in our parks and gardens, to understand and care about this place we call home. We want our homes and streets to be resilient to the impacts of climate change.

The environment has become the top concern for Australians (Ipsos 2020), and over the last 24 years the Port Phillip EcoCentre has helped translate that care into action. In the last decade we have seen a 500% increase in young people engaging with our programs, a 500% increase in people taking action to reduce their household emissions, and our volunteer hours have increased to a record 77,000 per year in 2020. Our cottage facilities are no longer fit-for-purpose, demonstrating sustainable practice, meeting capacity demands or accessibility requirements.

At a time when Australians are increasingly seeking ways to connect and create tangible change, the EcoCentre's team and expert network are equipped to scale up community leadership for the climate, health and economic challenges ahead. The EcoCentre is a place where ordinary people come together to care for the places we all love, together with people from all sectors of our diverse community.

## Providing space for Melbourne to connect, act and transform.

As a base to stimulate connection, education and action, our new EcoCentre will contribute to a thriving future where humans live sustainably with equitable access to clean air and water, healthy soil, abundant wildlife and renewable energy.

- A community space triple the size of the EcoCentre's current meeting room, to house discussions and educator PD workshops, as well as community workshops, meetings, and volunteer trainings
- All-weather learnscapes to enable year-round place-based education for learners of all ages, including adult groups, large school classes and early childhood groups
- Stunning sustainable design. Net zero carbon in operation and construction, and powered by 170 rooftop solar panels, the new building will model innovative sustainable design and living
- A fully fit out community kitchen and garden, nature play nook and accessible decks, including native climbing plants on the building's exterior and no loss of open space
- One of the first citizen science labs in Australia, supporting volunteer-driven projects including microplastic analysis and biodiversity research

This is a time for change.

### Latest News

A grid of six news article cards. Each card features a small image and a title. The titles include "FAQ: EcoCentre Building Upgrade", "Share Your EcoHouse Memories", "Blog: The Original EcoHouse Cottage Had an Energy Efficiency of Less", "EcoHouse Memories Part 1: Stories Under The Tree", "EcoHouse Memories Part 2: Stories Under The Tree", and "EcoHouse Memories Part 3: Stories Under The Tree".

## Join us to create a thriving world.

The Port Phillip EcoCentre Building Upgrade is supported by the Victorian Government and the City of Port Phillip.

We are now seeking contributions from philanthropy, business and community to assist with remaining costs of fitout and support the expansion of our programs for increased impact.

# Animals Australia

Kindness in Action' Worksheet Template

'Our Way' Factsheet

**Animals Australia**  
for a kinder world

Can you imagine a world where we **lead with our hearts**? We can.

## This is Our Way.

2020 was a transformative year affecting and challenging the ways we expect to live our lives. With this as the catalyst, we decided to reflect on the fundamentals underpinning our strategy, our operating model and organisational culture.

*This led us to Our Way.*

We work together in organic and dynamic ways, rather than through traditional hierarchical structures. At Animals Australia, everyone is a leader – we created different ecosystems to reflect different types of responsibility and to enable **leadership at all levels**.

**Animals Australia**  
for a kinder world

## Heart Based Leadership.

Leadership is a quality that exists within all of us. It's not something that is defined by our job title. Instead of conventional management styles, we have **Guiding Relationships** that provide mentoring and support so that people can flourish, not as employees but as people. **Heart Based Leadership** is what defines us, the highest and noblest values are what show us the way.

Our Way encourages each of us to discover our **flow state** - the crescendo of the challenge and enjoyment that comes from doing meaningful things that reflect our passion and capabilities. Instead of relying on arbitrary statistics, we chart individual growth and development through the level of fulfillment people get from using their strengths when they feel their authentic, true selves.

We have devolved decision making from a few to **everyone**, based on our skills, expertise and experience in our realm. The rules are simple and transparent. We reach out for advice and wisdom as needed, but the decision still rests with us. It is a liberating approach in which actions are not viewed through a binary 'right and wrong', but through the prism of what is achieved and learned along the way.

Our Way seeks to shine a progressive path for every person who joins us to feel empowered to bring their full selves in the service of our vision. By bringing our humanity to the fore in our jobs, Animals Australia is showing an alternative way of working that is natural and has a greater impact... **for a kinder world.**

## Outreach Flyers

### Here's your sign to make a real impact in Victoria's Heartland.

Embark on a transformative journey that will shape lives, communities, and your own professional trajectory.

Whether your expertise is in maternal, paediatric, mental health, chronic disease management or ear and eye health, the Rural Workforce Agency Victoria (RWAV) invites you to become a part of our growing healthcare Outreach community.

Our Outreach placements provide you with a tailored experience, matching your specialisation and availability, to community need. We use workforce distribution, rural health needs, cycle of care and demographic data to ensure you are making a true impact.

Currently, we have over 400 Outreach services providing specialised health and well-being care to rural, regional and Aboriginal and Torres Strait Islander communities across the state. Will you join us?

Ready to take the leap, and make a difference for rural and First Nations communities? Get Started at [RWAV.com.au/Outreach](http://RWAV.com.au/Outreach)

#### Outreach Programs cover:

-  Travel Costs
-  Accommodation
-  Meals
-  Room Hire
-  Administration Support

### Help Bridge The Gap in Victoria's Eye Health

As an ophthalmologist, your expertise can make a life-changing difference in the lives of rural, regional and First Nations communities in Victoria.

The Rural Workforce Agency Victoria (RWAV) invites you to become a part of our growing healthcare Outreach community.

Our Outreach placements provide you with a tailored experience, matching your specialisation and availability, to community need. We use workforce distribution, rural health needs, cycle of care and demographic data to ensure you are making a true impact.

At the heart of our Outreach program is the belief that everyone deserves access to quality healthcare, regardless of geographical location or background.

Will you help bring vital eye care services to those in need?

**Rural Health Outreach Fund (RHOF)**  
 Improving access to healthcare services for all residents in rural and remote communities. This program has 4 focus areas: mental health, eye health, chronic disease and paediatric health.

**Eye and Ear Surgical Support (EESS)**  
 Increasing access to ear surgery for Aboriginal and Torres Strait Islander youth aged zero to 21 years, and eye surgery for Aboriginal and Torres Strait Islander people for all ages, in rural and remote areas.

**Visiting Optometrists Scheme (VOS)**  
 Supporting optometry services for Australians in regional, rural and remote areas. The VOS is made up of an Indigenous and non-Indigenous component with the Indigenous component making up 40% of the total funding.

**Medical Outreach Indigenous Chronic Disease Program (MOICDP)**  
 Increasing access to healthcare for Aboriginal and Torres Strait Islander peoples with chronic disease. This program includes all Indigenous people with chronic disease, regardless of geographical location.

**Coordination of Indigenous Eye Health**  
 Improving access to eye health care for Aboriginal and Torres Strait Islander clients across the full spectrum of eye care, ensuring services from referral, initial consultations, treatment and return to the community. A component of the Closing the Gap - Improving Eye and Ear Health Services for Indigenous people.

## Program Factsheets

### Coordination of Indigenous Eye Health (CIEH)

[www.rwaw.com.au/outreach/CIEH](http://www.rwaw.com.au/outreach/CIEH)

**Improving access to eye health care for Aboriginal and Torres Strait Islander clients across the full spectrum of eye care, ensuring services from referral, initial consultations, treatment and return to the community. A component of the Closing the Gap - Improving Eye and Ear Health Services for Indigenous People.**

Indigenous Eye Health Coordination (CIEH) improves access to eye health care for Aboriginal and Torres Strait Islander clients across the full spectrum of eye care. This includes ensuring integration of services from referral, initial consultations, treatment and return to the community. Coordination of Indigenous Eye Health is a component of the Closing the Gap - Improving Eye and Ear Health Services for Indigenous People.

**CIEH Objective:**  
Improving access to eye care for Indigenous patients through the improved coordination of services, including improved linkages between a range of services required by patients and enhanced delivery of these services.

**What CIEH Funding Will Cover:**  
The funding for CIEH covers RWAV staff resource to ensure the coordination of the activities in partnership with several stakeholders. Service activities with eye health coordination program.

**CIEH Locations And Health Priorities:**  
The priority for CIEH is focusing on the coordination of services across the full spectrum of eye care, including those delivered through the Medical Outreach Indigenous Chronic Disease Programme (MOICDP), Rural Health Outreach Fund (RHOF) and the Hearing Optometrists Scheme (VOS).

As part of the planning and implementation of the CIEH activities, RWAV will be seeking in partnership with eye health care stakeholders working across the state (including Primary Health Networks, local health services and hospitals, Aboriginal Community Controlled Health Services, eye health care service providers, Victorian Department of Health and local health organisations) to ensure integration of services from initial consultations to treatment, referral and continuity of care for the local communities.

**RWAV** [www.rwaw.com.au](http://www.rwaw.com.au)  
T: 03 9349 7900 (option 2)  
E: [VcOutreach@RWAV.com.au](mailto:VcOutreach@RWAV.com.au)

### Ear Health Coordination

[www.rwaw.com.au/outreach/EarHealthCoordination](http://www.rwaw.com.au/outreach/EarHealthCoordination)

**Improving ear and hearing health for Aboriginal and Torres Strait Islander peoples by embedding regular, best practice monitoring and treatment (including referral for follow-up treatment) as part of the usual practice in primary healthcare clinics.**

The aim of the Ear Health Coordination program is to enhance the monitoring and treatment of ear and hearing health in primary care. The Ear Health Coordination program focuses on increasing access to quality and culturally safe ear and hearing health services for Aboriginal and Torres Strait Islander children and youth. As part of the Ear Health Coordination program, RWAV regularly participates in partnership initiatives with VACCHO, RVEDH, PHNS, Soundfax, HAPEE and Hearing Australia to streamline Ear Health messaging across Victoria.

**Ear Health Coordination Objective:**  
Improving ear and hearing health for Aboriginal and Torres Strait Islander peoples by embedding regular, best practice surveillance and treatment (including referral for follow-up treatment) as part of the usual practice in primary health care clinics.

**Ear Health Coordination Locations And Health Priorities:**  
The funding for RWAV is to provide coordination of ear and hearing health activities in Victoria. The program aims to:  
• Improve Aboriginal and Torres Strait Islander ear and hearing health  
• Enhance the monitoring and treatment of ear and hearing health in primary care  
• Have a particular focus on supporting access to quality culturally safe ear and hearing health services for Aboriginal and Torres Strait Islander children and youth  
• Work collaboratively with primary health care clinics and other stakeholders to identify and support activity needed to improve ear health

**RWAV** [www.rwaw.com.au](http://www.rwaw.com.au)  
T: 03 9349 7900 (option 2)  
E: [VcOutreach@RWAV.com.au](mailto:VcOutreach@RWAV.com.au)

### Eye and Ear Surgical Support (EESS)

[www.rwaw.com.au/outreach/EESS](http://www.rwaw.com.au/outreach/EESS)

**Increasing access to ear surgery for Aboriginal and Torres Strait Islander youth aged 16 to 21 years, and eye surgery for Aboriginal and Torres Strait Islander people for all ages, in rural and remote areas.**

The Eye and Ear Surgical Support (EESS) program facilitates access to surgical interventions to support Aboriginal and Torres Strait Islander peoples who require eye surgery (largely cataracts) and/or ear surgery for conditions caused by middle ear infections (Otitis Media). The EESS is part of Indigenous Australia's Health Programme (IAHP), alongside Medical Outreach Indigenous Chronic Disease Program (MOICDP) and Healthy Ears - Better Hearing Better Listening (HEBHL).

**EESS Objective:**  
The EESS breaks down barriers to accessing consultations and surgery by:  
• Removing financial barriers for clients and their carers by covering the costs of accessing consultations and surgery. This includes transport to and from appointments as well as meals and accommodation if required.  
• Providing care coordination for clients to ensure they can attend their appointments and/or surgery.  
• Removing financial disincentives experienced by health professionals when delivering outreach services, and covering the costs such as travel, meals and accommodation.  
• In the case of ear surgery, making funds available to support surgical services for clients with acute or chronic otitis media and its direct outcomes.

**EESS Eligibility Criteria:**  
• Patients identify as Aboriginal and Torres Strait Islander  
• Patients live in Victoria within MM3 - 7 location  
• Patients require eye surgery (largely cataract)  
• Patients require ear surgery caused by middle ear infections (Otitis Media)

**What EESS Funding Will Cover:**  
• Domestic travel, meals and accommodation support and other incidentals for health professionals  
• Domestic travel, meals and accommodation support for other stakeholders for eligible patients and their carers  
• Pre and post consultations for the surgery  
• Hospital and anaesthetic fees (not including surgery fees - surgery should be bulk billed)

**EESS Locations And Health Priorities:**  
The Department of Health uses the Modified Monash Model (MMM) 2019 classification system to determine eligibility for service locations across Australia. Services supported through the EESS are delivered in MM 3 (large rural towns) to MM 7 (very remote communities). Services are provided for Aboriginal and Torres Strait Islander people who reside in remote health care areas and/or ear surgery for conditions caused by middle ear infections (Otitis Media).

**RWAV** [www.rwaw.com.au](http://www.rwaw.com.au)  
T: 03 9349 7900 (option 2)  
E: [VcOutreach@RWAV.com.au](mailto:VcOutreach@RWAV.com.au)

### Healthy Ears Better Listening Better Hearing Program (HEBHL)

[www.rwaw.com.au/outreach/HEBHL](http://www.rwaw.com.au/outreach/HEBHL)

**Increasing access to ear and hearing services for Aboriginal and Torres Strait Islander children and youth in rural and remote areas.**

Healthy Ears - Better Hearing, Better Listening (HEBHL) program is about increasing access to a range of health services including expanded primary health for Aboriginal and Torres Strait Islander children and youth (0 - 21 years) for the diagnosis, treatment and management of ear and hearing health. The HEBHL is part of the Indigenous Australia's Health Programme (IAHP), alongside Medical Outreach Indigenous Chronic Disease Program (MOICDP) and Eye and Ear Surgical Support Program (EESS). RWAV is currently working with the Victorian Aboriginal Community Controlled Health Organisation (VACCHO) in piloting an ENT telehealth model in two locations to increase access to bulk-billing GDT services and better support surgical referral pathways.

**HEBHL Objectives:**  
• Increasing access to multidisciplinary care in primary healthcare settings  
• Increasing the range of services offered by visiting health professionals to prevent, detect and manage ear disease more effectively

**Eligible Services For HEBHL Funding:**  
• Specialist medical services  
• Allied health professionals  
• Nursing services  
• Combinations of eligible services (i.e. multidisciplinary team)  
• Outreach GP services

**HEBHL Locations And Health Priorities:**  
The Department of Health uses the Modified Monash Model (MMM) 2019 classification system to determine eligibility for service locations across Australia. Services supported through the HEBHL are delivered in MM 2 (regional centres) to MM 7 (very remote communities).

**What HEBHL Funding Will Cover:**  
In addition to provision of clinical services for patients, HEBHL funding can be used for:  
• Coordination and administration of these services  
• Travel costs, accommodation and meals/incidentals for visiting health professionals  
• Equipment lease  
• Host facility fees  
• Spelling / training associated with the outreach visit  
• Cultural awareness training for non-salaried private providers  
• Professional support associated with outreach services  
• Program administration costs for fundholders  
• Marketing and activities to raise public awareness of outreach services  
• Hospital services linked to surgical support services provided under the EESS program only

**RWAV** [www.rwaw.com.au](http://www.rwaw.com.au)  
T: 03 9349 7900 (option 2)  
E: [VcOutreach@RWAV.com.au](mailto:VcOutreach@RWAV.com.au)

### Medical Outreach Indigenous Chronic Disease Program (MOICDP)

[www.rwaw.com.au/outreach/MOICDP](http://www.rwaw.com.au/outreach/MOICDP)

**Increasing access to healthcare for Aboriginal and Torres Strait Islander peoples with chronic disease. This program provides all Indigenous people with chronic disease, regardless of geographical location.**

Chronic conditions account for 70% of the total health gap between Aboriginal and Torres Strait Islander peoples and non-Indigenous Australians. The Medical Outreach Indigenous Chronic Disease Program (MOICDP) increases access to a range of health services, including expanded primary care for Aboriginal and Torres Strait Islander peoples for the prevention, diagnosis and management of chronic disease, where chronic disease is defined as a condition that has been (or is likely to be) present for six months or longer. The MOICDP is part of the Indigenous Australia's Health Programme (IAHP), alongside Healthy Ears - Better Hearing Better Listening (HEBHL) Program and Eye and Ear Surgical Support Program (EESS).

**MOICDP Objective:**  
Increasing access to multidisciplinary care in primary healthcare settings  
Increasing the range of services offered by visiting health professionals to prevent, detect and manage chronic disease more effectively

**Eligible Services For MOICDP Funding:**  
The MOICDP supports outreach services provided by the following health professionals:  
• Specialist medical services  
• Allied health professionals  
• Nursing services  
• Combinations of eligible services (i.e. multidisciplinary team)  
• Outreach GP services

**What MOICDP Funding Will Cover:**  
In addition to provision of clinical services for patients, MOICDP funding can be used for:  
• Coordination and administration of these services  
• Travel costs, accommodation and meals/incidentals for visiting health professionals  
• Equipment lease  
• Host facility fees  
• Spelling / training associated with the outreach visit  
• Cultural awareness training for non-salaried private providers  
• Professional support associated with outreach services  
• Program administration costs for fundholders  
• Marketing and activities to raise public awareness of outreach services

**MOICDP Locations And Health Priorities:**  
The Department of Health uses the Modified Monash Model (MMM) 2019 classification system to determine eligibility for service locations across Australia. Services supported through the MOICDP are delivered in MM 1 (metropolitan areas) to MM 7 (very remote communities). The activities are the treatment and management of chronic diseases, including:  
• Diabetes  
• Cardiovascular Disease  
• Respiratory Disease  
• Bone Disease  
• Cancer

**RWAV** [www.rwaw.com.au](http://www.rwaw.com.au)  
T: 03 9349 7900 (option 2)  
E: [VcOutreach@RWAV.com.au](mailto:VcOutreach@RWAV.com.au)

### Rural Health Outreach Fund (RHOF)

[www.rwaw.com.au/outreach/RHOF](http://www.rwaw.com.au/outreach/RHOF)

**Improving access to healthcare services for all residents in rural and remote communities. This program has a focus areas: mental health, eye health, chronic disease and paediatric health.**

The Rural Health Outreach Fund (RHOF) aims to ensure all Australians have the same opportunity to access medical services, regardless of where they live.

**RHOF Objective:**  
Providing both public and private outreach health services that address prioritised community needs  
Broadening the range and choice of health services available in regional, rural and remote locations  
Removing financial disincentives that create barriers to service provision

**Eligible Services For RHOF Funding:**  
• Specialist medical services  
• Allied health services  
• Midwife and nursing services  
• Combinations of eligible services (i.e. multidisciplinary team)  
• Outreach GP services, including support for female GPs to provide outreach services to broaden the health service  
• Services available to rural women  
• Administration and coordination of the above services

**What RHOF Funding Will Cover:**  
The RHOF can assist with funding to support new services, as well as support established visiting outreach health services. This fund provides a flexible funding pool to support health professionals in delivering healthcare services in outreach locations by providing funding support to cover the costs of travel, accommodation, meals and other associated expenditures. Outreach funds cannot cover the cost of a salary. Medicare billing should be claimed where possible. The RHOF also supports cultural training for outreach service providers and encourages providers to offer standing services at outreach locations.

**RHOF Locations And Health Priorities:**  
The Department of Health uses the Modified Monash Model (MMM) 2019 classification system to determine eligibility for service locations across Australia. Services supported through the RHOF are delivered in MM 3 (large rural towns) to MM 7 (very remote communities). There is an unmet need in 60 to 80 per cent of the following health priorities:  
• Maternity and Paediatric Health  
• Eye health  
• Mental health  
• Support for chronic disease management, including complex pain management

**RWAV** [www.rwaw.com.au](http://www.rwaw.com.au)  
T: 03 9349 7900 (option 2)  
E: [VcOutreach@RWAV.com.au](mailto:VcOutreach@RWAV.com.au)

### Visiting Optometrists Scheme (VOS)

[www.rwaw.com.au/outreach/VOS](http://www.rwaw.com.au/outreach/VOS)

**Supporting optometry services for Australians in regional, rural and remote areas. The VOS is made up of an Indigenous and non-Indigenous component with the Indigenous component making up 40% of the total funding.**

The Visiting Optometrists Scheme (VOS) program provides outreach eye services to people living in rural and regional locations, who do not have ready access to primary eye care services, and supports optometrists in delivering outreach optometric services to those communities with an identified need.

**VOS Objective:**  
The objective of the VOS is to improve eye health of people in regional, rural and remote locations by:  
• Increasing optometry services in areas of identified need  
• Improving the coordination and integration of those eye health services and the quality of ongoing patient care, and  
• Enhancing communication between visiting optometrists, local health providers and other visiting health professionals

**Eligible VOS Services For Funding:**  
• Community services  
• Optometry students (under optometrist supervision)

**What VOS Funding Will Cover:**  
• Coordination and administration of these services  
• Travel costs, accommodation and meals/incidentals for visiting health professionals  
• Equipment lease  
• Host facility fees  
• Spelling / training associated with the outreach visit  
• Cultural awareness training for non-salaried private providers  
• Professional support associated with outreach services  
• Program administration costs for fundholders  
• Marketing and activities to raise public awareness of outreach services

**VOS Locations And Health Priorities:**  
The Department of Health uses the Modified Monash Model (MMM) 2019 classification system to determine eligibility for service locations across Australia. Services supported through the VOS are delivered in MM 2 (regional centres) to MM 7 (very remote communities). Services for Aboriginal and Torres Strait Islander patients may also be provided in MM1 locations.

THANK YOU!

Hi there!

Our last few days at the **Essential Baby & Toddler Show** in Sydney have been absolutely incredible! Having the opportunity to meet so many new faces of happy parents and gorgeous little ones has been loads of fun!

We'd like to share a BIG thank you to all the happy families (and families-to-be) for coming down and showing interest in Eonien Care!

To offer our appreciation, we are gifting you a special coupon that entitles you to **20% off any product we have in our range!**

Keep updated with our latest news & offerings, and we look forward to seeing you again soon!

From the Eonien Care team

Our gift to you!

Access a 20% off store-wide discount by using the coupon code

Child Safety Poster

## YOU HAVE THE RIGHT TO ALWAYS FEEL SAFE.

No one at home, school or in the community should behave in a way that makes you feel unsafe or afraid.

**If you're ever feeling unsafe, don't be scared to start a conversation with a member of our team.**

# Inner Melbourne VET Cluster

## 2021 VET Courses Guide

A collage of various pages from the VET Courses Guide. The pages include:

- Youth2Industry:** Details about the program, including contact information for the Victorian Skills Centre.
- Table of Contents:** A comprehensive list of all VET programs and their page numbers.
- VET Myths versus Facts:** A section with five circular icons addressing common misconceptions about VET.
- 2021 VET PROGRAMS:** A page with a dark background and a central white box containing the title.
- OC2041's Certificate II in Active Volunteering:** Information about this specific certificate program.
- 2021 VET PROGRAMS:** Another page with a pink and purple background and a central white box containing the title.
- School Based Apprenticeships and Traineeships (SBAT):** Details about these work-based learning opportunities.
- HOW TO APPLY:** A page with a geometric pattern background and a central white box containing the title.
- ENDLESS OPPORTUNITIES:** A page with a blue background and a central white box containing the title.

**5 Benefits of Being a Mentor**

1. Feel good about giving back to the community.
2. Enhance your listening and communication skills.
3. Gain recognition of your skills and experience.
4. Increase motivation and confidence.
5. Self-reflection about your own journey.

I have Aspergers and that means I'm sometimes a bit different from the norm... being different is a superpower.

- Greta Thunberg

“I haven't missed a day, and I'm learning a lot in class, lots of career stuff. It's different to other programs I've tried in the past.”

JAMES  
MAP Participant

**What is MAP?**  
Making Alternatives Possible (MAP) is a 10-week program designed for 17-19 year olds who want to explore alternate education pathways.
